September 2019 - Featured Manufacturer: **SIEMENS!**  
M&M Distributes the Finest Names in the Industry!

**SIEMENS**

**About SIEMENS:** Siemens is a leader in pneumatic and electronic systems for the control of HVAC and process applications. The Siemens Building Technologies division offers a broad product portfolio that covers a wide variety of requirements and applications. This extensive product range forms the basis for efficient and cost-effective solutions across the entire lifecycle of a building. The continuity of heating, ventilation, and air conditioning systems as well as lighting and shading maximizes energy savings and user comfort.

**Is your building State-of-the-Art?** Siemens has the HVAC products and building automation systems you need to optimize the energy costs, reliability, comfort and performance of buildings while meeting ecological and sustainability requirements. Innovative products and proven Siemens applications contribute to state-of-the-art performance and ingenuity.

**M&M Control is a stocking distributor of Siemens products.** For more product such as thermostats, sensors, and damper actuators, please refer to our [Siemens](#) pages or give us a call today!

## Siemens | HVAC & Building Automation Systems

599 Series Zone Valves

Flowrite Globe Valves

Butterfly Valves

Valve & Valve Actuators  
"Dynamic Duos"

### Siemens Ingenuity for Life

Siemens continuously improves building technology in order to create the ideal environment. "When building technology creates perfect places – that is Ingenuity for Life." Some products featured here include:

- **Zone Valves:** Zone Valves provide control of fan coils, baseboards, unit ventilators, radiant heat, and other applications where on/off, floating or proportional control is required. Direct-coupled technology enables interchangeability among actuators and valve bodies. Actuators are easily changed out through a quick connection and without the need for tools.
- **Flowrite Globe Valves:** The Flowrite Two-way Globe Valves are recommended for water, low and high pressure steam, and glycol solutions up to 50 percent. Compatible with piping line sizes ranging from 1/2 to 6-inch (Cv range 1.0 to 400), Globe Valves are an excellent choice for small to large air handling units and for central plant applications.
- **Resilient Seat Butterfly Valves** are excellent for isolation and distribution applications and are available in sizes up to 20-inches. Two-way and three-way Butterfly Valves provide 2-position (On/Off), floating and modulating control. Valve assemblies provide excellent flow control of hot water, chilled water, condenser water, and thermal storage systems applications.

Call M&M Control for assistance at 1-800-876-0036 or visit our Web site to see our other fine lines as well at [www.mmcontrol.com](http://www.mmcontrol.com). Thank you! We look forward to hearing from you.

Sincerely,  
*Paul Fionda*

*M & M Control Service, Inc. is a leading distributor of pneumatic, electronic, and self-contained valves, controls, and process control equipment. Our commitment to quality products and exceptional customer service is renowned in the industry. Our sales engineers are factory trained to provide you with sizing, application, configuration, or installation assistance.*

**FACTORY DIRECT PRICING!  
PRODUCTS INCLUDE:**

**Valves:**

Gate, ball, butterfly, gas valves, solenoid, control, needle, water, steam, instrument, automatic, thermostatic, pneumatic, electronic, mixing, check, and relief valves.

**Gauges:**

Pressure gauges, utility gauges, process, industrial, commercial & contractor gauges, HVAC/R, and specialty gauges.

**Controls & Controllers:**

Pneumatic / electronic HVAC, process, combustion, PID, recorders (strip/circular/paperless), and indicators.

- Calibrators
  - Flow Meters
  - Regulators
  - RTDs
  - Transducers
  - Sensors
  - Steam Traps
  - Strainers
  - Thermocouples
  - Thermometers
  - Transmitters
- ... AND MORE!**
