

Product Feature January 2020 - - - Safety Relief Valves

Consolidated

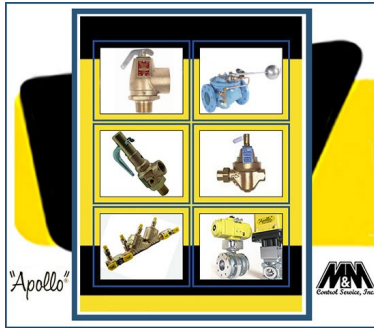

KUNKLE VALVE

Industrial Safety, Relief, & Control Valves When is the last time you inspected the automation and process of your equipment for safety and reliability? The process to safety does not come without conscious effort. There is no limit that can be set when looking out for the well-being and safety of your employees.

Safety and relief valves and control valves have a great impact on businesses. Without dependable safety, control, and protection of industrial processes, businesses may fail. That is where we come in. Established in 1984, M&M Control is a well-known leader in the distribution of valves, instrumentation, controls, and process control equipment. Our commitment to quality products and exceptional customer service is renowned in the industry.

Some of the premium lines we carry include Apollo Valves, Aquatrol, Kingston Valves, Kunkle Valve, Spence™ and GE's CONSOLIDATED* brand. These manufacturers have been major pioneers in the valve and process control industry for more than 100 years.

Apollo® Valves is a leading manufacturer of American-made flow control products. While some see valve manufacturing as a mature industry, Apollo has earned a reputation for developing and introducing new products to meet emerging market demands while focusing on quality and problem-solving innovations.

Aquatrol is an American based manufacturer of safety and relief valve products with expertise in the field since 1947. The company continually develops new innovative products, controlled with rigorous quality control, setting, testing and re-testing for each customized application. The addition of new product allows Aquatrol to crossover with all threaded or portable safety and relief valve manufacturers, worldwide.

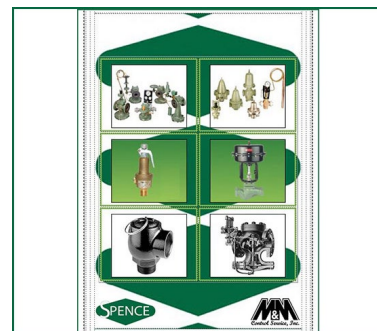

The **Consolidated Valve** company has provided dependable, ground-breaking safety & relief valves since 1852. GE's CONSOLIDATED* brand safety valve products continue to supply industries with pressure relief valve solutions, valve control, and safety protection for plant personnel and equipment.

Kingston Valves has been designing and building high quality industrial valves for over 100 years. Kingston is a strong industrial valve manufacturer for many applications such as process control, steam fired autoclave sterilizers, hyperbaric therapy chambers, fire suppression, locomotive brake systems, compressed air systems and dryers, and food & beverage equipment.

Kunkle Valve is a leading manufacturer of quality pressure and safety relief valves for industrial and commercial applications, including cryogenics and non-hazardous gases to high temperature and vacuum to high pressure steam, air, gas, and liquid applications.

Spence engineered steam specialty and fluid control products meet the changing needs of today's HVAC and industrial marketplaces. Spence safety relief valves provide over-pressure protection for steam, air gases, vapors, water, liquids, and powdered solids.

**FACTORY DIRECT PRICING!
PRODUCTS INCLUDE:**

Valves:
Gate, ball, butterfly, gas valves, solenoid, control, needle, water, steam, instrument, automatic, thermostatic, pneumatic, electronic, mixing, check, and relief valves.

Gauges:
Pressure gauges, utility gauges, process, industrial, commercial & contractor gauges, HVAC/R, and specialty gauges.

Controls & Controllers:
Pneumatic / electronic HVAC, process, combustion, PID, recorders (strip/circular/paperless), and indicators.

- Calibrators
- Flow Meters
- Regulators
- RTDs
- Transducers
- Sensors
- Steam Traps
- Strainers
- Thermocouples
- Thermometers
- Transmitters
