November 2020 [View as Webpage](#)

This Month's Featured Manufacturer

TRERICE: Temperature. Pressure. Control.

The Standard of Quality and Dependability.

H. O. Trerice provides the highest quality temperature and pressure instrumentation and controls available to the industry. *Did you know* that in addition to regulators, control valves and actuators, Trerice produces pressure gauges, temperature instrumentation, and commercial plumbing products? Trerice was one of the first manufacturers to provide lead-free pressure gauges across the product line. Gauges meet the highest standards of the Safe Drinking Water Act.

Trerice gauges include process, industrial, specialty, utility, and commercial & contractor gauges as well as accessories. *Ask us about the 875 Series* that is designed for severe service applications. The one-piece forged brass case and socket withstands the harshest industrial applications. Glycerin fill is available to help protect against vibration and shock.

Browse our [Trerice](#) pages for additional products and category information.
