Variable Area Flow Meter Instrumentation and Flow Metering Technologies

Rugged. Reliable.

Flow measurement engineering designs provide solutions serving the industrial, municipal, and commercial markets. These brands are built to withstand the rigorous conditions associated with the industry.

Monitor flow for optimal process control. **M&M Control** offers a full line of Hedland & Flo-tech products. For additional product information, please view our [Hedland](#) pages or give us a call today!

Superior Flow Management Solutions

[EZ-View® Flow Meter](#)

[MR Flow Transmitter](#)

[Inline Liquid Flow Meters](#)

The Hedland product line features over 18,000 inline **Variable Area Flow Meters** to measure oil, phosphate esters, water, water-based liquids, and compressed gases.

The **EZ-View® Flow Meter** contains a minimum number of moving parts, offering a reliable and trouble-free flow rate indicator.

MR Flow Transmitters: Hedland's multi-functional remote flow indicators and transmitters for liquids, air, and other compressed gases are microprocessor based variable area flow meters.

The **Inline Liquid Flow Meter** is a rugged industrial class inline flow rate indicator, offered in aluminum, brass or stainless steel models to monitor a wide variety of liquids.

Flo-tech Testers and Turbine Flow Meters

[Hydraulic Testers](#)

Flo-tech Portable Hydraulic Testers are for diagnostic troubleshooting of hydraulic systems and components. Units provide flow, temperature, pressure, and optional power measurements simultaneously from one point.

The **Flo-tech Turbine Flow Meter** measures the flow rate of hydraulic and compatible liquids.
