The Marsh Bellofram Group of Companies is a leading manufacturer of high performance OEM, industrial, and process control instrumentation.

Strength. Power. Performance.

Bellofram Precision Controls division designs and manufactures products that excel in environments where high performance, long service life, and accuracy are critical. Air and gas pressure regulators offer precision control, high accuracy, and maximum stability even under rigorous conditions. Pneumatic relays offer cost-effective, high performance air regulation across a variety of applications. Filter-Regulator-Lubricators (FRLs) feature modular design to eliminate fittings between components and save space.

Marsh Instruments offers high quality pressure gauges and thermometers. Pressure gauges are used in applications where accuracy, dependability, and durability are essential. Marsh provides highly rugged precision instruments adaptable to wherever pressure or temperature measurements are required. Industrial-grade temperature instruments include bi-metal, hot water, industrial, submarine, miniature (pocket) and digital thermometers and transducers.

PCD Servo Pressure Controllers

Precision Control Regulators & Transducers

M&M Control is proud to represent the Marsh Instruments & Precision Controls Divisions of the Marsh Bellofram Group of Companies! Browse our [Marsh Bellofram](#) pages for additional product selection and category information.
