

Featured Manufacturer - - March 2020

KUNKLE VALVE offers a wide range of high-quality safety and relief valve products for industrial and commercial applications.

High quality safety and relief valves are synonymous with the name Kunkle. Erastus B. Kunkle worked for the Pennsylvania Railroad during a time when serious injury and mechanical problems could result from over-pressure of the locomotive engine. In 1875, E. B. Kunkle invented the "lock-up safety valve" designed to relieve engine pressure, which revolutionized the industry.

From its onset as the Fort Wayne Safety Valve Works in 1876, today, Kunkle Valve is a leading manufacturer of quality pressure and safety relief valves including cryogenics and non-hazardous gases to high temperature and vacuum to high pressure steam, air, gas, and liquid applications.

M&M Control offers a full line of **Kunkle Valve** products.

Kunkle safety and relief valve products range in size from 1/4-inch NPT through 6" flange and are suitable for services ranging from cryogenic to 850° F. at set pressures ranging from vacuum to 6,500 psig.

Kunkle Valves are available in a wide range of materials including brass, bronze, carbon steel, stainless steel, cast iron, and aluminum and are used in many applications such as steam turbines, steam boilers and generators, high pressure receivers, pumps, tanks, air lines and hydraulic systems.

A graphic advertisement for Kunkle Valve. At the top, the text "KUNKLE VALVE" is written in large green letters. To the right is the M&M logo. Below the text is the phone number "800-876-0036". The central part of the graphic shows six different types of Kunkle valves: a small brass valve, a larger brass valve with a spring, a brass valve with a handle, a brass valve with a ring handle, a red valve, and a blue valve. At the bottom of the graphic is a green-tinted image of a steam locomotive.

Did you know . . . In addition to the Kunkle valve, Erastus Kunkle also developed a water gauge, gauge-cock, steam gauge, and, patented on Sept. 5, 1871, a "new and improved egg-beater, provided with self-acting valves!"

M & M Control Service, Inc. is a leading distributor of pneumatic, electronic, and self-contained valves, controls, and process control equipment. Our commitment to quality products and exceptional customer service is renowned in the industry. Our sales engineers are factory trained to provide you with sizing, application, configuration, or installation assistance.

**FACTORY DIRECT PRICING!
PRODUCTS INCLUDE:**

Valves:

Gate, ball, butterfly, gas valves, solenoid, control, needle, water, steam, instrument, automatic, thermostatic, pneumatic, electronic, mixing, check, and relief valves.

Gauges:

Pressure gauges, utility gauges, process, industrial, commercial & contractor gauges, HVAC/R, and specialty gauges.

Controls & Controllers:

Pneumatic / electronic HVAC, process, combustion, PID, recorders (strip/circular/paperless), and indicators.

- Calibrators
 - Flow Meters
 - Regulators
 - RTDs
 - Transducers
 - Sensors
 - Steam Traps
 - Strainers
 - Thermocouples
 - Thermometers
 - Transmitters
