Precision Manufactured Steam Products

Made in the USA

Since 1878

Featured Manufacturer of Steam & Fluid Specialty Products

Watson McDaniel has manufactured a wide range of high-quality, time-tested steam specialty and fluid products for the industrial marketplace since 1878.

[HB Series Control Valve w/Pneumatic Actuator](#)

[HB Series Control Valve w/Electric Actuator](#)

[W94 Self-Operated Temperature Regulator](#)

[Pilot-Operated Regulating Valve](#)

Watson McDaniel's HB Series 2-Way or 3-Way [Control Valves](#) are offered with a pneumatic actuator with optional positioner, or with an electric actuator.

W91/W94 Self-Operating [Temperature Regulators](#) require no external power source and are used for accurately controlling temperature in both heating and cooling applications.

HD Series Pilot-Operated [Regulating Valves](#) use several different control pilots mounted to the valve to control pressure, temperature, or a combination of both. Designed for extremely accurate control of temperature and pressure in steam service applications.

[Thermodynamic Steam Traps](#)

[Thermostatic Steam Traps](#)

[Float & Thermostatic Steam Traps](#)

[Inverted Bucket Steam Traps](#)

Steam Traps are essential components of any steam system to discharge condensate, air, or other non-condensable gases from a steam system while preventing the loss of steam. **Watson McDaniel** offers an extensive line of steam traps to handle any application.

M&M offers a full line of Watson McDaniel products.

Call M&M Control for help with your application.
