July 2019 . . . **M&M Distributes the Finest Names in the Industry!**
This Month's Featured Manufacturer:

**Manufacturer of Variable Area Flow Meter Instrumentation
 and Flow Metering Technologies.**

Hedland provides superior instrumentation of rugged construction built to meet and exceed the needs of the rigorous conditions associated with the industry. Hedland's highest quality flow measurement engineering designs and solutions serve the industrial, municipal, and commercial markets worldwide.

MR Flow Transmitters for Liquids / Air and other Compressed Gases:

Hedland's line includes a full line of multi-functional remote flow indicators and transmitters. Hedland MR Transmitters deliver flow rate on a digital display and/or analog output. With models available for standard and high temperature applications, Hedland products are compatible with the most demanding applications in fluid power, oil and gas, automotive, semiconductor, mining and discrete manufacturing.

Variable Area Flow Meters: The Hedland product line features over 15,000 inline, variable area flow meters to measure oil, phosphate esters, water, water-based fluids, pressurized air and other compressed gases. Hedland products work well for both new and retrofit applications as they can be installed in any position, do not require flow straighteners, and have no special piping requirements.

Products are available in aluminum, stainless steel, brass, polysulfone or Radel® bodies to deliver cost-effective solutions for applications based on fluid compatibility, temperature, and pressure. For improved productivity, reduction of maintenance costs, and to protect critical investments, buy Hedland reliable flow metering and process control technology today.

Flo-tech portable hydraulic testers have long been the leaders in state-of-the-art testing equipment. Offered in three models, in a variety of sizes, the compact,

self-contained portable testers are designed for fast, diagnostic troubleshooting of both mobile and stationary hydraulic systems and components.

Call us for help with your application at 800-876-0036! Visit our Web site to see our other fine lines at www.mmcontrol.com. Thank you! We look forward to hearing from you.

Sincerely,
Paul Fionda
 VP Operations

M & M Control Service, Inc. is a leading distributor of pneumatic, electronic, and self-contained valves, controls, and process control equipment. Our commitment to quality products and exceptional customer service is renowned in the industry. Our sales engineers are factory trained to provide you with sizing, application, configuration, or installation assistance.

**FACTORY DIRECT PRICING!
PRODUCTS INCLUDE:**

Valves:

Gate, ball, butterfly, gas valves, solenoid, control, needle, water, steam, instrument, automatic, thermostatic, pneumatic, electronic, mixing, check, and relief valves.

Gauges:

Pressure gauges, utility gauges, process, industrial, commercial & contractor gauges, HVAC/R, and specialty gauges.

Controls & Controllers:

Pneumatic / electronic HVAC, process, combustion, PID, recorders (strip/circular/paperless), and indicators.

- Calibrators
 - Flow Meters
 - Regulators
 - RTDs
 - Transducers
 - Sensors
 - Steam Traps
 - Strainers
 - Thermocouples
 - Thermometers
 - Transmitters
