Featured Manufacturer for November 2021: **Armstrong**

About Armstrong: Armstrong products are the cornerstone in system solutions for steam, air, and hot water. Dependable products are at the heart of every Armstrong solution built around a network of education and training, and every system solution begins with a smart, practical product. Armstrong innovations and improvements in product design and function leads to savings in time, energy, and money.

How far will *your* energy take you?

M&M Control offers a full line of Armstrong products. For additional product such as pumps, strainers, vents, radiator products, air drain traps, piston valves, and industrial water temperature controls, please refer to our **Armstrong** pages or give us a call today!

Armstrong Steam, Air, & Hot Water Intelligent System Solutions

Steam Traps

Pressure Reducing Valves

Liquid Drainers

Armstrong has the system solution you need for your steam, air, and hot water application. Some products featured here include:

Steam Traps: Armstrong makes a full line of steam traps with a variety of materials and connector styles. Unique applications can also be solved with special trap variations. The most reliable steam trap known — the **inverted bucket** — provides efficient condensate drainage of virtually all types of steam-using equipment.

PRVs: Pressure reducing valves and temperature regulators help you manage steam, air, and liquid systems safely and efficiently. They ensure uninterrupted productivity by maintaining constant pressure or temperature for process control. The **GP-2000** is a high-performance, externally piloted reducing valve for large-capacity requirements.

11/22/13 LD Series: Armstrong's stainless steel, free-floating guided lever drain traps use the same bodies, caps, lever mechanisms, valves and seats as Armstrong **inverted bucket steam traps**. Elliptical floats and high leverage make it possible to open large orifices to provide adequate capacity for drain trap size and weight.

M&M offers a full line of Armstrong products!
