M & M Control Service, Inc. is a leading distributor of pneumatic, electronic, and self-contained valves, controls, and process control equipment. Our commitment to quality products and exceptional customer service is renowned in the industry. Our sales engineers are factory trained to provide you with sizing, application, installation, or repair assistance.

got steam?

Steam has transgressed its original boundaries with locomotives and the Industrial Revolution. Today it is an essential and integral part of modern technology. Without it, our food, textile, chemical, medical, power, heating, and transport industries could not exist or perform as they do.

Its use is popular throughout industry for a broad range of tasks from mechanical power production to space heating and process applications. It can be found in numerous industries from Energy, Pulp and Paper, Food Processing, and Heavy Industrial to Domestic Heating, Hot Water Supply, Pharmaceutical, and beyond. Steam systems or steam loops require a variety of components to ensure its efficiency, delivery, and recovery. Components such as Boiler Controls, Gauges, Safety Relief Valves, Temperature Regulating Valves, Steam Traps, Check Valves, Strainers, Recovery Tanks and Pumps are just some of the devices used. No matter the stage in steam control from generation, conditioning, and delivery to recovery, or the industries that use them M&M Control Service, Inc. has the steam solution for you.

FACTORY DIRECT PRICING!

PRODUCTS INCLUDE:

Valves:

Gate, ball, butterfly, gas valves, solenoid, control, needle, water, steam, instrument, automatic, thermostatic, pneumatic, electronic, mixing, check, and relief valves.

Gauges:

Pressure gauges, utility gauges, process, industrial, commercial & contractor gauges, HVAC/R, and specialty gauges.

Controls & Controllers:

Pneumatic / electronic HVAC, process, combustion, PID, recorders (strip/circular/paperless), and indicators.

Calibrators Steam Traps

Flow Meters Strainers

Regulators Thermocouples

RTDs Thermometers

Transducers Transmitters

Sensors . . . AND MORE!
