This Month's Featured Manufacturer:

STERLING

1-800-876-0036

About Sterling Sterlco: In 1916 the company known as the Sterling Engineering Company (Sterl Co) began designing and manufacturing valves, traps, strainers, and condensate pumps for steam and hot water systems. Today, with more than 100 years of application experience, a diverse engineering staff, state-of-the-art CAD-CAM design and thousands of custom applications, Sterlco is uniquely suited to meet your individual requirements and specifications.

Sterling Steam Control products are designed to help you maintain temperature, flow, and pressure, ensuring you get the most from your system. Sterlco® Temperature Control Valves are temperature actuated, self-powered, fully balanced, and applicable to heating or cooling processes using water, oil, steam, or other fluids. Simple yet efficient design requires minimum maintenance and heavy-duty construction assures long valve life.

Sterico Radiator Valves feature practical, simple styling for your steam or hot water heating systems. Sterling Y strainers are engineered for water or steam, and are adaptable for many other uses. Steam traps are preferred for efficient, economical vacuum, and pressure service.

M&M Control is a stocking distributor for Sterling Steam Control.

FACTORY DIRECT PRICING! PRODUCTS INCLUDE:

Valves:

Gate, ball, butterfly, gas valves, solenoid, control, needle, water, steam, instrument, automatic, thermostatic, pneumatic, electronic, mixing, check, and relief valves.

Gauges:

Pressure gauges, utility gauges, process, industrial, commercial & contractor gauges, HVAC/R, and specialty gauges.

Controls & Controllers:

Pneumatic / electronic HVAC, process, combustion, PID, recorders (strip/circular/paperless), and indicators.

Calibrators Steam Traps
Flow Meters Strainers
Regulators Thermocouples
RTDs Thermometers
Transducers Transmitters
Sensors . . . AND MORE!
