July 2018 -- Featured Manufacturer -- [Warren Controls](#)

M&M Distributes the Finest Names in the Industry!

About Warren Controls: Warren Controls has been in the valve business for more than 50 years serving a wide variety of commercial, industrial, military and OEM customers. The first products Warren Controls offered were regulators designed for the HVAC and marine industries. Today, the company's product lines continue to grow through extensive product development and target marketing. *Warren continues to set the bar on new and innovative fluid control products as evidenced below:*

This year, Warren Controls rolled out the most robust modulating electric actuator in its class, with accuracy, speed and a whole host of useful features not found anywhere in its price category! Check out the details [here](#), or call M&M Control for more information or for help with your application!

NEW MEET the **ARIA**
The modulating electric control valve actuator you can count on!
LEARN MORE...

In 2016, Warren Controls introduced the ILEA line of Industrial Linear Electric Actuators.

Historically, electric actuators were deemed 'incapable' by industrial standards; they could not take the ambient temperatures of those application environments; they did not have the speed; they were not 'robust'; they did not have the Fail-Safe capability. If they did have all these attributes the cost was prohibitive.

This is no longer the case! Check out the 2800E, 2900E, and 5800E Series and invest in the [ILEA Series](#) today!

Level Controls: The overflow pipe of a deaerator prevents the tank from flooding and requires a Trap that keeps the steam blanket from escaping, relieves condensate, and is able to release the maximum amount of overflow.

Warren Type 313 Overflow Trap traps and relieves this condensate through its internal pilot without the steam blanket escaping. Buoyancy of its float ball provides force to actuate internal pilot operated single seat valve assembly to relieve condensate and overflow to drain.

Don't forget to order your [level controls](#)!

FACTORY DIRECT PRICING!
INDUSTRIAL PROCESS & HVAC CONTROLS:

- Temperature
- Flow
- Pressure
- Humidity
- Level
- PH

Can't find what you need?
 CALL US!

1-800-876-0036

We have access to other brands not listed here.

Complete Repair & Service Facilities!

- For all types of valves, controls, sensors, gauges, instrumentation etc.
- Nationwide sales, service, calibration, and installation
- Free estimates on most items
- Full factory parts warranty — 90 days labor
- NIST Traceable

At M&M, everyone is our preferred customer! Come join the "M&M Family!"

02/2015-2

M&M is Proud to Represent Warren Controls! Contact our sales professionals for assistance today at 1-800-876-0036 or visit our Web site at www.mmcontrol.com to see our other fine lines as well.

Thank you! All of us at M&M look forward to hearing from you.

Sincerely,

Paul Fionda
 VP Operations
