Product Feature October 2021 - - - Safety Relief Valves

Consolidated

KUNKLE VALVE

Safety. Relief. Control. Would you drive a car with flat tires? Mow grass with broken blades? **Do not neglect your business practices!** Always ensure that critical safety measures are in place to protect your industrial process and personnel. No limit can be set when looking out for the welfare of your employees.

Do it now! Inspect the mechanisms of your process for safety and reliability. Without dependable safety and control of industrial processes, businesses may fail. That is where we come in. M&M Control is the leader in distribution of valves, instrumentation, and process control equipment. Safety and relief valves and control valves have a great impact on businesses.

Some premium lines we carry include Apollo Valves, Aquatrol, Kingston, Kunkle, Spence™ and GE's CONSOLIDATED* brand. These manufacturers are major pioneers in valve and process control industries.

[Apollo® Valves](#) is a leading manufacturer of American-made flow control products. Apollo earned a reputation for developing and introducing new products to meet emerging market demands while focusing on quality & problem-solving innovations.

[Aquatrol](#) is an American based manufacturer of safety and relief valve products with expertise in the field since 1947. The company continually develops new innovative products controlled with rigorous quality control, setting, testing and re-testing for each customized application. The addition of new product allows Aquatrol to crossover with all threaded or portable safety and relief valve manufacturers, worldwide.

The [Consolidated Valve](#) company has provided dependable, ground-breaking safety & relief valves since 1852. GE's CONSOLIDATED* brand safety valve products continue to supply industries with pressure relief valve solutions, valve control, and safety protection for plant personnel and equipment.

[Kingston Valves](#) has been designing and building high quality industrial valves for over 100 years. Kingston is a strong industrial valve manufacturer for many applications such as process control, steam fired autoclave sterilizers, hyperbaric therapy chambers, fire suppression, locomotive brake systems, compressed air systems and dryers, and food & beverage equipment.

[Kunkle Valve](#) is a leading manufacturer of quality pressure and safety relief valves for industrial and commercial applications, including cryogenics and non-hazardous gases to high temperature and vacuum to high pressure steam, air, gas, and liquid applications.

[Spence](#) engineered steam specialty and fluid control products meet the changing needs of today's HVAC and industrial marketplaces. Spence safety relief valves provide over-pressure protection for steam, air gases, vapors, water, liquids, and powdered solids.

*CONSOLIDATED is a trademark of the General Electric Company or its affiliates.
