Mueller Steam Specialty is a top provider of strainers and specialty products serving the valve industry, producing the highest quality strainers and valves of its kind in the marketplace. In addition to a full range of pipeline and specialty strainers, the company offers a broad range of check valves and butterfly valves.

[Y Strainers](#)

[Basket Strainers](#)

[Turbine Meter Strainer](#)

[Tee Strainers](#)

[Mueller Strainers](#) are used to strain foreign matter from connected pipeline systems and provide protection for pumps, meters, valves, and other costly mechanical equipment. [Y Strainers](#) remove solids from flowing steam, gases, or liquid piping systems. [Tee Strainers](#) remove foreign particles from pipelines. [Turbine Meter Strainers](#) protect fluid monitoring devices such as displacement water meters.

[Basket strainers](#) are used in applications that require a strainer with an extremely large capacity. Types include [simplex basket strainers](#) such as model 125-SS used for chemical processes including brine, paint, fuel oil, organic and inorganic chemicals, condensers, heat exchangers, and similar applications. [Duplex basket strainers](#) are for continuous flow applications where the process cannot be shut down for cleaning.

[Butterfly Valves](#)

Check Valves Shown: [Sure Check](#), [Chexter](#), & [Silent Checks](#)

[Butterfly Valves](#) are designed for a variety of general applications for controlling liquids, gases, and slurries. Wafer and lug butterfly valves are offered in a range of sizes, performance ratings, and actuation options.

Mueller offers a variety of [Check Valves](#) such as series 71 Class 125 cast iron [SURE CHECK™](#) valves that are designed for liquids and gases where flow reversal can cause surge and water hammer.

M&M Control offers a full line of Mueller products. Call us for help with your application!
