## Scotina Process Indicator <br> 1/32 DIN, Fully Programmable

The LCI132 Series process indicators offer flexibility, and value in a low cost, compact $1 / 32$ DIN package. This family of indicators offers input availability for most types of process measurement.
The LCI132 has a 7.62 mm ( 0.3 inch) high display. The shallow depth of these full size panel meters allows installation in panels only 70 mm ( 2.76 inches) deep with room to spare.
Inputs are available for Process ( 0 to $10 \mathrm{~V}, 4$ to 20 mA ), AC Volts, AC Amps, DC Volts, and DC Amps.

## FEATURES

- Large display
- Easy to program
- Inputs for most processes
- IP65 (NEMA 4X) front
